The Safe Dams Program has not seen, reviewed, nor blessed a five year master plan. To be clear, it is not typical for the program to sign off on a master plan. However, the plans for any work on the dam must be submitted for review and approval prior to the work commencing.

Have a great day!

Dallon Thomas (Tom) Woosley, P.E.  
Program Manager  
Safe Dams Program

Hello, Tom,  
I got this yesterday from our leaders in Big Canoe. I see where this person from Geosyntec is going to review this five year master plan. Keeping in mind that I am not familiar with the workings of your organization, should I assume that you have reviewed and blessed this proposal. I believe you told me work has to be approved by your org. Please answer this for me. Thank you.
