Mr. Hopkins,

The most recent records sent to EPD were the second and third quarter inspections from May and July 2020 and the April 2020 Engineering Report. Both files were sent to you yesterday. We are not finding any record of the "new Report" referenced in your email. Thank you.

Kevin/Tom,

Can you check the files again that you just sent me. I already had the 61 Page Geosyntec Engineering Report dated April 2020. The Engineering Report in question that I am seeking is a new Report, supposedly an approx 25 pages. Internal POA Board Minutes indicate that this should have been submitted in August to October of this year, but nevertheless should have been dated after the last July Inspection Report.

Can you check to see if that was in the files submitted to you, and either confirm/deny that your offices received that latest Geosyntec Engineering Report, and if you did receive it will you please forward me the electronic copy?

PS... thank you for your help so far.

Peace,

- david hopkins / publisher

Mr. Hopkins,

You will not need to send another records request. The reports were split into two files for purposes of emailing them. They were sent to us this afternoon and are attached. Thank you.

Kevin / Tom,

It appears that according to the Big Canoe, there was a server error. They say they sent the 2020 lake petit dam inspection reports, but the files were too big. They have just replied that they have resent them to your offices. (See *the Big Canoe POA response to me, forwarded below*)

Do you wish me to resubmit an ORR for the files, or can you just forward me the electronic records, which is how they are being sent to you?

Peace,

- david hopkins / publisher

Hi David Hopkins,

A reply has been added by Scott Auer to your ticket #2665. Please click on the following link to view and reply to the message [#2665](#). You can also view the ticket message below and reply back to this email to respond.

Ticket Message:

Hello David. I just spoke to the DNR. Our reports were too big for their server and got lost in the ether. They are being resent as we speak. All is well.

Scott Auer,
General Manager

Thanks and Regards,
