SUBJECT: Lake Petit Dam
Pickens County

Gentlemen:

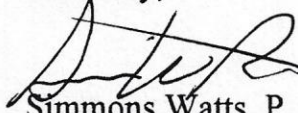

On March 20, 1996 our staff conducted the annual inspection on your dam and several major deficiencies were found. In our follow-up letter of April 15, 1996 we gave you a time line for notifying us of an engineer being hired and the submission of the engineer's plans to correct these deficiencies.

Since both the deadlines for your notifying our office of an engineer being selected and said engineer submitting his plans have passed, we must wonder where the project stands?

Please respond by July 15, 1996 in writing giving us a status up-date and an anticipated time line for correction of the deficiencies on your dam.

If you should have any questions, please contact this office at 404/362-2678.

Sincerely,

Simmons Watts, P. E.
Principal Environmental Engineer
Safe Dams Program
