SUBJECT: Petit Dam
Pickens County

Dear Mr. Ledbetter:

In response to our telephone conversation on June 6, 2001, I spoke with Tom Woosley about the rock patio your organization wants to build around the flagpole on top of Petit Dam. I also showed him the pictures that you faxed me. He said that if the structure is built as the picture shows, he does not see a problem with it being built.

If you organization changes the structure from what is shown in the picture, you must contact us at (404) 362-2678.

Sincerely,

Christopher S. Owen
Environmental Engineer
