FILE COPY

SUBJECT: Petit Lake Dam
Pickens County
Permit #112-009-00462

Dear Mr. Bates:

This office has reviewed the Emergency Action Plan (EAP) regarding the subject dam that was received on July 5, 2017, and sent review comments on December 11, 2017. The Safe Dams Program is also in receipt of a January 10, 2018, letter from Geosyntec stating they plan to submit a revised EAP containing revised inundation mapping and incorporating most other requested changes by January 31, 2018. As of the date of this letter, the Safe Dams Program is **not** in receipt of a revised EAP for the subject dam.

You must provide to this office either the revised EAP or a schedule for completing the EAP **within 30 days of the date of this letter**. Failure to respond may lead to further enforcement. If you have any questions, you may contact me at 404-232-7844.

Sincerely,

A handwritten signature in blue ink, appearing to read "Kate Betsill".

Kate Betsill
Environmental Engineer
Safe Dams Program
