SUBJECT: Petit Lake Dam
Pickens County
Permit #112-009-00462

Dear Mr. Bates:

This office has reviewed the Emergency Action Plan (EAP) regarding the subject dam that was received on July 17, 2018. There is one comment below that must be addressed before the EAP can be approved. Please note that the document was reviewed for conformance to an approved format, but not for accuracy. As an owner of the dam, it is your responsibility to ensure the accuracy of the document and to address the below comment.

1. In the flowcharts and contact information table, you must include the Safe Dams Program's after-hours number 1-800-TRYGEMA in addition to the numbers given.

You must address the above issue and provide to this office either the revised EAP or a schedule for completing the EAP **within 30 days of the date of this letter**. Failure to respond may lead to further enforcement.

Additionally, as soon as practical, you should consider updating the 1998 inundation mapping used, as conditions may have changed. If you have any questions, you may contact me at 404-232-7844.

Sincerely,

A handwritten signature in blue ink that reads "Kate Betsill".
